

**Dr. Rajika Kuruwita****Citizenship: Australian**

CONTACT INFORMATION	Heidelberg Institute for Theoretical Studies Schloß-Wolfsbrunnenweg 35 69118 Heidelberg, Germany	Tel: +49 176 2675 1570 E-mail: rajika.kuruwita@h-its.org Website: <a href="https://rajikalk.github.io/index.html">https://rajikalk.github.io/index.html</a> ORCID: 0000-0002-9236-2919
RESEARCH INTERESTS	Star formation, binary and multiple star systems, protoplanetary disks and planets in binary star systems, MHD simulations, software development.	
EDUCATION	<b>Australian National University, Canberra, Australia</b> <b>February, 2015 - January, 2019</b> <b>PhD</b> <ul style="list-style-type: none"> <li>Thesis Topic: "The formation, evolution, and survivability of discs around young binary stars"</li> <li>Primary Supervisor: Associate Professor Christoph Federrath</li> <li>Secondary Supervisor: Professor Michael Ireland</li> </ul> <b>Macquarie University, Sydney, Australia</b> <b>February, 2010 - January, 2015</b> <b>MRes. Physics and Astronomy</b> <ul style="list-style-type: none"> <li>Thesis Topic: "Fallback disks and the end of the common envelope phase"</li> <li>Primary Supervisor: Professor Orsola De Marco</li> <li>Secondary Supervisor: Assistant Professor Jan Staff</li> </ul> <b>BSc. Astronomy and Astrophysics</b>	
EMPLOYMENT HISTORY	<b>Heidelberg Institute for Theoretical Studies, Heidelberg, Germany</b> <i>Independent Postdoc Fellow</i> <b>October, 2019 - Present</b> Research the formation of binary and multiple star systems via numerical simulations. <b>University of Copenhagen, Copenhagen, Denmark</b> <i>Post-doctorate researcher (EU INTERACTIONS fellow)</i> <b>April, 2019 - August, 2022</b> Investigate protostellar multiplicity and binarity on disk evolution. <b>Australian National University, Canberra, Australia</b> <i>Research Assistant</i> <b>February, 2019 - April, 2019</b> Research the formation of binary stars systems via simulations. <i>Outreach Assistant</i> <b>December, 2015 - April, 2019</b> Organise and run outreach observing and site tours for the public, school, scout, and private groups, as well as design activities for the observatory visitor centre. <b>Macquarie University, Sydney, Australia</b> <i>Laboratory Demonstrator</i> <b>February, 2014 - January, 2015</b> Taught lab experiments for undergraduate students. This also involved marking lab books. <i>Observatory and Planetarium Supervisor</i> <b>February, 2010 - January, 2015</b> Coordinated groups, created tours and presentations, operated observatory and planetarium. <i>Vacation Scholarship Researcher</i> <b>December, 2012 - February, 2013</b> Simulated light curves to understand the influence of exoplanets on the asteroseismological pulsation spectrum of stars. <i>Vacation Scholarship Researcher</i> <b>January, 2012 - February, 2012</b> Carried out research on nanowires using white light interferometry.	
TIME AWARDED	<b>Australian National University 2.3m Telescope</b> <ul style="list-style-type: none"> <li>PI: Building a Census of Protoplanetary Disks in Binary Star Systems (20 nights over 3 years)</li> </ul> <b>LUMI Supercomputer</b>	

- **CO-I:** Embedded Disks: 24000000 core hours over 12 months
- PRACE**
- **CO-I:** Embedded Disks (2021250113): 40000000 core hours over 12 months

SELECTED TALKS	<b>Anton Pannekoek Institute for Astronomy</b>	<b>April, 2022</b>
	Invited Talk	Amsterdam, The Netherlands
	<b>Distorted Astrophysical Discs</b>	<b>May, 2021</b>
	Contributed Talk	Cambridge, UK
	<b>Niels Bohr Institute</b>	<b>January, 2019</b>
	Invited Talk	Copenhagen, Denmark
	<b>Sutherland Astronomical Society Incorporated</b>	<b>September, 2018</b>
	Invited Talk	Sydney, Australia
	<b>Franco-Australian Astrobiology and Exoplanet School and Workshop</b>	<b>December, 2017</b>
	Contributed Talk	Canberra, Australia
AWARDS AND HONORS	<b>Mt Stromlo Students Seminars</b>	<b>December, 2016</b>
	Contributed Talk (Awarded Best Theme Talk)	Canberra, Australia
	<b>Star Formation</b>	<b>August, 2016</b>
	Computational Astrophysics splinter session (Invited)	Exeter, UK
	<ul style="list-style-type: none"> <li>• 2023: Hochschulwettbewerb (national college competition) winners. Received 10000EUR to create a communication project about 'Our Universe'.</li> <li>• 2021: Kvinder i Fysik (Danish Women in Physics) Prize 2021 Nominee</li> <li>• 2020: European Union INTERACTIONS Fellowship</li> <li>• 2017: Joan Duffield Research Supplementary Scholarship</li> <li>• 2015: Australian Postgraduate Award</li> <li>• 2013: Macquarie University Research Training Scholarship</li> <li>• 2012: Vacation Scholarship (Macquarie University)</li> <li>• 2011: Vacation Scholarship (Macquarie University)</li> </ul>	
TEACHING	<b>Computational astrophysics lecturing</b>	<b>November, 2019 - 2020</b>
	Gave post-graduate level lectures on computational astrophysics reviewing hydrodynamics and modelling shock waves.	
	<b>Laboratory demonstrator</b>	<b>February, 2014 - January, 2015</b>
	Taught lab experiments for undergraduate students in physics and astronomy. I also marked lab books.	
SUPERVISION	<b>Niels Bohr Institute masters students</b>	<b>August, 2021 - Present</b>
	I co-supervised three masters students that worked on producing synthetic observations from my simulations and built a pipeline using machine learning to fit synthetic observations to real observations of young protostars.	
	<b>Niels Bohr Institute bachelors projects</b>	<b>February-April, 2021, 2022</b>
	Supervised 5 bachelor student groups on projects including modelling exoplanet interiors, and n-body simulations of the solar system and stellar systems.	
	<b>Mt Stromlo Observatory summer research</b>	<b>December, 2017 - February, 2018</b>
	Co-supervised honours student Isabella Gerard on a research project on turbulent magnetic fields and star formation. I am co-author on the paper published from this project.	
	<b>Mt Stromlo Observatory winter school</b>	<b>June-July, 2017</b>
	Advised undergraduate students Lara Cullinane, Patrick Armstrong, Joshua Ho and Lillian Guo in planning observations and writing telescope proposals.	
COMPUTER SKILLS	<ul style="list-style-type: none"> <li>• Computing Languages: Python, Fortran and html</li> <li>• Applications: <math>\text{\LaTeX}</math>, yt, simulation codes RAMSES, FLASH, DISPATCH and Enzo, analysis of hdf5 files from hydrodynamic simulations, reducing observational data in fits files, retrieving radial velocities.</li> <li>• Operating Systems: Unix/Linux, Windows, and Mac.</li> </ul>	

OTHER ACADEMIC SERVICES	<ul style="list-style-type: none"> <li>• Reviewer for Monthly Notices of the Royal Astronomical Society</li> <li>• Founded of Astronomy on Tap Copenhagen in 2020.</li> <li>• Treasurer of Kvinder i Fysik (the Danish women in physics society) from 2019 to present.</li> <li>• Contributed two popular science articles to the Sunday Space in the Canberra Times.</li> <li>• Member of the Local Organising Committee for the 2017 Harley Wood Winter School and Annual Scientific Meeting of the Astronomical Society of Australia.</li> <li>• Member of the Science Organising Committee for the 2016 Harley Wood Winter School.</li> <li>• Chair of the Organising Committee for the 2016 Mt Stromlo Student Seminars.</li> </ul>
REFeree DETAILS	<ul style="list-style-type: none"> <li>• Associate Professor Troels Haugbølle, Center for Star and Planet Formation, University of Copenhagen, Geology Museum, Øster Voldgade 5-7, 1350 København K, tel: +45 35 32 11 41, email: haugboel@nbi.ku.dk</li> <li>• Associate Professor Christoph Federrath, Research School of Astronomy and Astrophysics, Australian National University, Research School of Astronomy &amp; Astrophysics, Mount Stromlo Observatory, Cotter Road, Weston Creek, ACT 2611, tel: +61 2 6125 0217, email: christoph.federrath@anu.edu.au</li> <li>• Professor Jes Kristian Jørgensen, Center for Star and Planet Formation, University of Copenhagen, Geology Museum, Øster Voldgade 5-7, 1350 København K, tel: +45 35 32 41 86, email: jeskj@nbi.ku.dk</li> </ul>
